EDUCATION

M.Sc. Data Science and Machine Learning — Hellenic Open University, 2024

B.Sc. Mathematics — Aristotle University of Thessaloniki, 2021

TECHNICAL SKILLS

Languages: Python (Pandas, NumPy, Scikit-learn, TensorFlow), SQL (BigQuery, PostgreSQL), R

Visualization & BI: Power BI, Tableau, Excel

Methods: Statistical Analysis, A/B Testing, EDA, Data Cleaning, Feature Engineering, ML/DL

Tools: Git, Docker, Azure Cloud, MLflow

PROJECTS

Thessaloniki Short-Term Rental Market Analysis

- Analyzed 4,124 Airbnb listings to assess market health, regulatory compliance, and host dynamics
- Applied non-parametric statistical tests with effect size reporting for group comparisons
- Built interactive Power BI dashboard for spatial and temporal pattern exploration

Tools: Python, Power BI

A/B Testing with Multi-Armed Bandit Optimization

- Compared classic A/B testing with Thompson Sampling for CTR optimization
- Built Flask-based simulation framework; achieved 15-20% improvement in cumulative rewards
- Applied Bayesian methods for statistical analysis and visualization

Tools: Python, Flask

Bike Sharing Customer Segmentation

- Analyzed 5.8M+ bike rides to identify behavioral differences between rider segments
- Delivered data-driven recommendations for converting casual riders to members

Tools: SQL (BigQuery), Python, Power BI

Credit Risk Classification

- Built ensemble classifier (SVC, Logistic Regression, Random Forest) with custom cost function
- Implemented feature engineering, SMOTE for class imbalance, and threshold tuning

Tools: Python, MLflow, Streamlit

CERTIFICATIONS

Azure Data Scientist Associate • Power BI Data Analyst Associate • Azure AI Fundamentals

Google Data Analytics Professional Certificate

EXPERIENCE

Mathematics Tutor — Self-Employed, Serres, Greece | 2016 – Present

- Teach middle and high school mathematics; prepared students for Greek National exams
- Developed tailored lesson plans and explain complex concepts to diverse audiences
